Art and Science of Flying Ground School

Saturday, April 23rd, 8:00 am to 5:00 pm at Jackson Jet Center, KBOI

www.ArtandScienceofFlying.com

Excitement is building for Idaho's first Art and Science of Flying ground school, a fun workshop exploring the magic and mechanics of flight. Some amazing things are happening already:

Mark your calendar, reserve your spot now for Art and Sci BOI!

- One school we know of is sending a group of a dozen students, two teachers, and its principal. What other groups will exhibit similar resourcefulness, enthusiasm, and commitment to participate in this innovative, aviation-themed STEM education program?
- Some attendees are traveling from as far away as Laramie, WY and Vancouver, WA.
- Reps from Joseph, OR will be there to get ideas for an aviation program they are developing for their local high school.
- Reps from the PEGASAS FAA Center of Excellence are traveling from NJ and OH to evaluate the program as a model for similar outreach events at airports across the U.S.

Why Pilots and Aviation Enthusiasts Should Attend

Earn FAA WINGS Credit (3 Knowledge Credits for Eligible Pilots)

Represent general aviation in Idaho

Talk about aviation to non-pilots, students, and teachers

Showcase airports as community assets

Support event sponsors and partners

Ponderosa members: register online NOW, get \$9.00 off the regular registration fee (enter promo code: PAC)

Why Teachers and Students (ages 13 and up, younger if truly motivated) Should Attend

Earn Professional Development Credit (6 Hours In-Service for K-12 Teachers, Form B7)

See how STEM applies to birds, bees, and big jets

Interact with pilots and others who work in aviation

Experience STEM through the lens of aviation

We still have some scholarships available for female, minority, or underserved students to attend!
If you know someone who might qualify for a scholarship, email Rich@RichStowell.com for details.

Why Airport and FBO Managers Should Attend

Generate ideas for similar outreach programs at your airport

See how airports can be positioned as valued educational resources

Showcase airport facilities and capabilities

Discover potential new sources for revenue through community outreach

Represent general aviation in Idaho
